ABOUT US

We have been a trusted partner to several architects and designers over the last decade. We specialise in bringing your creative vision to life with impeccable finesse. We employ only the best quality builders, joiners, tilers, designers and bespoke cabinet makers as a one stop solution to all aspects of a luxury renovation.

WHAT OUR

Clients say

I love working with Maxwells on custom made joinery work on projects. eally good quality, lovely team and they have great ideas on how best to make an item.

NATASHA MARSHALL

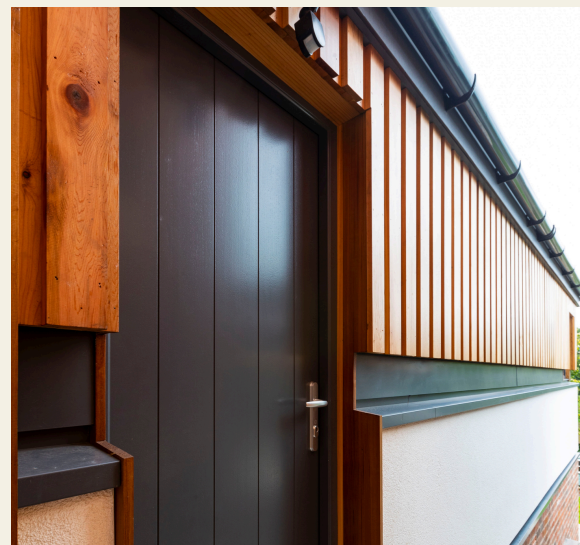

Maxwells were instrumental in the transformation of our house from a tired period property to a home much more suited to modern living, without losing its charm.

P BEVERIDGE

Stephen and Steph were a pleasure to work with and not only co-ordinated many complex aspects of the project including multiple trades as well as Architect and Engineer input, everyone stayed focused on helping us realise the outstanding results and finish we were looking for. We will certainly be using Stephen and the team again for future work and cannot recommend Maxwells highly enough.

A dimly lit living room with a large grey sofa, a floor lamp, and a window. The room is dark, with the main light source being a floor lamp with a large black shade. The sofa is a large, L-shaped sectional. In the background, there is a window with a radiator below it and a small sculpture on a table to the left. The overall mood is quiet and sophisticated.

THANK YOU
